To : Supply Chain Manager

From: SM: Community Services Department

RE : Specification for Supply and Delivery of cleaning equipment

Refuse section within Community Services Department has a responsibility of ensuring that all aspects of waste and environmental management with the Municipality are always maintained to prevent adverse effect to environment. This starts from waste minimization, collection and disposal from all 31 wards of Mbizana. The section is now in a mission of minimizing waste that is produced and disposed off, by trying to educate its communities and town users about the importance of waste minimization and to motivate and support all initiatives of waste minimization so as to reach a pollution free environment in Mbizana. For the section to achieve this it needs to be procured with the following cleaning equipment.
