RE : Specification for tools and equipment for Mbizana Alien Plant Eradication Project

In terms of schedules 4 and 5 of the constitution, specific functions are to be performed by the municipality. Included in these functions is the control and management of the spread of Alien Plants. The municipality was granted funding for Mbizana Alien Plant Eradication Project and this requires the municipality to purchase tools and equipment for implementation of the project.

The project will be implemented for 12 months. This serves to request supply and delivery of the following tools and equipment.
