RE : Specification for Arbor week awareness campaign material

The National Arbor Week is an opportune time to call on all South Africans to plant indigenous trees as a practical and symbolic gesture of sustainable environmental management. It is therefore important for the public to join hands with partners in local government and community-base organisations. Greening in the South African context takes place in towns, townships and informal settlements specifically because in the past the latter mentioned areas were disadvantaged in terms of planning for parks as well as tree planting in streets and open spaces.

We therefore request your assistance in purchasing the following:-

Item Description		Size	Quantity
Plant list			
- <i>Dietis grandiflora</i>	Groundcover	3L	50
	Shrub	5L	10
	Tree	20L	10
